Cardinal’s A-4A00 series is a modified acrylic enamel aerosol touch-up coating. It is designed for touch-up and repair of previously coated surfaces. This coating is classified as “exact match finish: industrial” by CARB (California Air Resources Board), and meets current limits for this category as well as the final limits that took effect on Dec. 31, 1999.

**TYPICAL USES:**
- Touch-up for:
  - Business machines
  - Decorative metal
  - Over high solid polyurethane
  - Over industrial waterbase enamels
  - Over powder coatings
  - Marking and identification
  - Selected plastics

**PRODUCT:**
- Typical:
  - Hardness
  - Flexibility
  - Impact
  - Adhesion

**TESTED FOR:**
- Touch:
  - Surfaces to be sprayed must be clean and free of dust, oil, and grease. Surfaces to be sprayed must be sanded and dusted prior to application.
  - For industrial use only.
  - For touch-up and repair use.

**PRODUCT IDENTIFICATION**
- Color number
- Gloss: 0 = flat; 1 = 10°; 2 = 20° . . . etc.; 70° - 80°+ = high gloss
- Special: eg., 2 = metallic; 4 = texture; 6 = primer; 7 = clear

**BENEFITS:**
- Suitable for exterior applications
- Fast dry
- Low VOC content
- Easy to apply
- RoHS – WEEE compliant

**CURED FILM PROPERTIES:**
- Unless otherwise indicated, testing conducted on gloss white on CRS.

</tbody>
</table>

**RECOMMENDED FILM THICKNESS:** 0.5 – 1.0 mils

**CURE:**
- Air Dry
  - Tack free 10 min.
  - Dry to handle 30 min.
  - Dry hard 2 hrs.
  - (At 1.5 mils dry film thickness, 78°F, 50% RH)

**CLEAN-UP:** After spraying, turn can upside down. Push button about 2 seconds or until paint in siphon tube is exhausted. Remove plastic spray head and run fine wire through spray orifice or hole. If necessary, clean head with lacquer thinner.

**PRODUCT LIMITATIONS:**
- For industrial use only.
- For touch-up and repair use.
- Do not use near flame or electrical sparks.
- Avoid storage above 100°F or below 45°F.

**ROWELL LIFE:** 6 months from date of manufacture on the unused aerosol can.

**DIRECTIONS FOR USE:** Check color and gloss for adequacy on scrap material prior to production. Check adhesion to substrate, scuff sanding and solvent wipe may be required. Surfaces to be sprayed must be clean and dry. Shake can vigorously for 2 minutes before using and occasionally during use. Remove metal cap and spray by depressing plastic spray head button. Spray at 14 to 24 inches from surface to be coated, using short bursts for best results. Several light coats are better than a single heavy coat. If paint runs, can is to close or finish is being applied too heavily. Blend spot being touched-up by feathering finish to light coating at edge of area.

* Solvent cleaning emissions may be limited in your area. Check with your local Air Quality board.

**NOT FOR RESIDENTIAL USE**
IMPORTANT: Warranty and Disclaimer — The performance characteristics of these products vary according to product application, operating conditions, materials applied to or with and use. Since these factors can affect results, we strongly recommend that you make your own test to determine to your satisfaction whether the product is of acceptable quality, has not been affected by storage or transport and is suitable for your particular purpose under your own operation conditions prior to using any product in full scale production. Seller warrants the products to be free from defects in materials and workmanship. SUCH WARRANTY IS EXCLUSIVE AND IS IN LIEU OF ANY OTHER WARRANTY, EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE. No representative of ours has authority to waive or change this provision, which applies to all sales of these products.

Safety: Contains organic solvents. Use with adequate ventilation - do not breath vapors or spray mists. If component TLVs are exceeded, a NIOSH approved air supplied respirator is advised. See MSDS for TLV information.
Contents are extremely FLAMMABLE and are under PRESSURE. Do not puncture or incinerate. Keep from heat, sparks or open flame. Exposure to heat may cause bursting.
Allergic reactions are possible. Avoid use by persons with respiratory problems.
Avoid contact with eyes, skin, and clothing. Wash thoroughly after handling.

First Aid:
Eye contact, flush immediately with plenty of water for at least 15 min. and get medical attention.
Skin contact:, wash thoroughly with soap and water for 5 minutes.
If swallowed, do not induce vomiting and get medical attention immediately.
Inhalation, remove to fresh air.
