

T291-BR251 OIL RUBBED BRONZE

1. PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: T291-BR251 OIL RUBBED BRONZE

PRODUCT USE: Industrial Powder Coating

MANUFACTURER 24 HR. EMERGENCY TELEPHONE NUMBER

> CHEMTREC (US Transportation): (800)424-9300 **CHEMTREC (International Transportation)**: (202)483-7616

WEB: WWW.CARDINALPAINT.COM

626 444-9274

Cardinal Paint and Powder

1329 Potrero Ave S. El Monte, CA, 91733

2. HAZARDS IDENTIFICATION

PICTOGRAMS:

SIGNAL WORD: DANGER

HAZARD STATEMENTS:

- H317 May cause an allergic skin reaction.
- H412 Harmful to aquatic life with long lasting effects.
- H351 Suspected of causing cancer.
- H372 Causes damage to organs through prolonged or repeated exposure.
- H318 Causes serious eye damage.
- H340 May cause genetic defects.

PRECAUTIONARY STATEMENTS:

- P280 Wear protective gloves/protective clothing/eye protection/face protection.
- P201 Obtain special instructions before use.
- P202 Do not handle until all safety precautions have been read and understood.
- P260 Do not breathe dust.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	Weight %	CAS Number	
1,3,5-Triglycidyl Isocyanurate	1% - 5%	2451-62-9	
Carbon Black	1% - 5%	1333-86-4	
Titanium Dioxide	0.10% - 0.50%	13463-67-7	

4. FIRST AID MEASURES

Description of first aid measures.

EYE CONTACT: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor/physician.

SAFETY DATA SHEET

ISSUED: 1/27/2016 **REFERENCE:** BR251-T291

SKIN CONTACT: Remove affected clothing and wash all exposed area with mild soap and water, followed by warm water rinse. Wash with plenty of soap and water. If skin irritation or rash occurs: Wash with plenty of soap and water. Get medical advice/attention. Wash contaminated clothing before reuse. Brush off loose particles from skin. Immerse in cool water/wrap in wet bandages.

INGESTION: Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention. Call a Poison Center or doctor/physician if you feel unwell

INHALATION: Allow Victim to breathe fresh air. Allow victim to rest. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a Poison Center or doctor/physician if you feel unwell

Most important symptoms and effect, both acute and delayed : Symptoms/Injuries: May cause genetic defects. Causes damage to organs. - After Inhalation: Danger of serious damage to health by prolonged exposure through inhalation. Harmful if inhaled. May cause an allergic skin reaction. May cause cancer by inhalation. - After Eye Contact: Causes serious eye damage. - After Ingestion: Swallowing a small quantity of this material may result in serious health hazard. Indication of any immediate medical attention and special treatment needed: No additional information available.

5. FIRE FIGHTING MEASURES

SUITABLE EXTINGUISHING MEDIA: Foam, alcohol foam, dry chemical, carbon dioxide, water fog or sand.

UNSUITABLE EXTINGUISHING MEDIA: Do not use heavy water stream.

FIRE FIGHTING PROCEDURE: Firefighting instructions: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering the environment.

Protection during firefighting: Firefighters should wear full protective gear. Do not enter fire area without proper protective equipment, including self-contained breathing apparatus with full face piece operated in pressure demand or other positive pressure modes.

UNUSUAL FIRE AND EXPLOSION HAZARD: This product is stable at normal handling and storage conditions.

6. ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS, PROTECTIVE EQUIPMENT AND EMERGENCY PROCEDURES : General measures: Remove ignition sources. Use special care to avoid static electric charges. No smoking.

FOR NON-EMERGENCY PERSONNEL: For non-Emergency procedures: Evacuate unnecessary personnel.

FOR EMERGENCY RESPONDERS : Protective equipment : Equip cleanup crew with proper protection. - Emergency procedures : Ventilate area.

ENVIROMENTAL PRECAUTIONS: Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public water. Avoid release to the environment.

METHODS AND MATERIAL FOR CONTAINMENT AND CLEAN UP: On land, sweep or shovel into suitable containers,. Minimize generation of dust.

7. HANDLING AND STORAGE

PRECAUTIONS FOR SAFE HANDLING: Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when you are leaving work. Provide good ventilation in process area. Use only in well ventilated areas. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Eliminate all ignition sources if safe to do so. Avoid breathing dust, fumes and/or vapors.

Hygiene measures: Wash Skin thoroughly after handling.

CONDITIONS FOR SAFE STORAGE, INCLUDING INCOMPATIBILITIES: Avoid heat sources and direct sunlight. Store in a dry place. Protect from moisture. Keep container closed when not in use. Keep only in the original container in a cool well ventilated place away from heat, ignition sources and direct sunlight.

Incompatible products: Strong bases. Strong acids.

Incompatible materials: Source of ignition. Direct sunlight.

8. EXPOSURE CONTROLS\PERSONAL PROTECTION

1,3,5-Triglycidyl Isocyanurate(2451-62-9)				
ACGIH TLV (Threshold Limit Value)	TWA (Time Weighted Average)	0.05 mg/m3 8 hours		
Carbon Black(1333-86-4)				
ACGIH TLV (Threshold Limit Value)	TWA (Time Weighted Average)	3 mg/m3 8 hours		
NIOSH REL (Recommended Exposure	TWA (Time Weighted Average)	0.1mg of PAHs/cm3 10 hours		
Limit)				
NIOSH REL (Recommended Exposure Limit)	TWA (Time Weighted Average)	3.5 mg/m3 8 hours		
OSHA PEL (Permissible Exposure Limit)	TWA (Time Weighted Average)	3.5 mg/m3 8 hours		
Crystalline Silica(14808-60-7)				
ACGIH TLV (Threshold Limit Value)	TWA (Time Weighted Average)	0.025 mg/m3 8 hours		
Hydrated magnesium silicate(14807-96-6	Hydrated magnesium silicate(14807-96-6)			
ACGIH TLV (Threshold Limit Value)	TWA (Time Weighted Average)	2 mg/m3 (Respirable Fraction) 8 hours		
NIOSH REL(Recommended Exposure Limit)	TWA (Time Weighted Average)	2 mg/m3 (Respirable Fraction) 10 hours		
Mica(12001-26-2)				
ACGIH TLV (Threshold limit Value)	TWA (Time Weighted Average)	3mg/m3 (Respirable Fraction) 8 hours		
NIOSH REL (Recommende Exposure Limit)	TWA (Time Weighted Average)	3mg/m3 (Respirable Fraction)		
OSHA PEL (Permissible Exposure Limit)	Ceiling	20 mppcf		
Titanium Dioxide(13463-67-7)				
ACGIH TLV (Threshold Limit Value)	TWA (Time Weighted Average)	10 mg/m3 8 hours		
OSHA PEL (Permissible Exposure Limit)	TWA (Time Weighted Average)	15 mg/m3 8 hours		

PERSONAL PROTECTIVE EQUIPMENT

RESPIRATORY PROTECTION: Wear approved dust mask.

HAND PROTECTION: Wear protective gloves.

EYE PROTECTION: Chemical goggles or safety glasses.

SKIN AND BODY PROTECTION: Wear suitable protective clothing.

WORK HYGIENIC PRACTICES: When using do not eat or drink. When using do not smoke. Wash hands before breaks and at the end of workday.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	:	Solid
Melting point	:	55 - 90 deg C
Flash point	:	No data available.
Lower explosion limit	:	10 g/m ³
Upper explosion limit	:	70 g/m ³
Density	:	1.4578
Solubility	:	No data available.
Autoignition temperature	:	No data available.
Decomposition temperature	:	No data available.

10. STABILITY AND REACTIVITY

REACTIVITY: This product is stable at normal handling and storage conditions.

CHEMICAL STABILITY: Stable under normal conditions.

CONDITIONS TO AVOID: Direct sunlight. Extremely high or low temperatures.

INCOMPATIBLE MATERIALS: Avoid contact with strong oxidizing agents.

HAZARDOUS DECOMPOSITION PRODUCTS: Fume. Carbon monoxide. Carbon dioxide.

11. TOXICOLOGICAL INFORMATION

1,3,5-Triglycidyl Isocyanurate(2451-62-9)	
ACGIH	No component of this product present at levels greater than or equal to
7.002.1	0.1% is identified as a carcinogen or potential carcinogen by ACGIH
Acute toxicity - LC50 - inhalation - rat - male - 4 h	> 650 mg/m3
Acute toxicity - LD50 - Dermal - rat- male	> 2000 mg/kg
& female	
Acute toxicity - LD50 - oral - rat	100 - 200 mg/kg
Additional information	To the best of our knowledge, the chemical, physical, and toxicological
	properties have not been thoroughly investigated
Aspiration hazard	No data available
Eye irritation - rabbit	Severe eye irritation
Germ cell mutagenicity	In vivo tests showed mutagenic effects
Germ cell mutagenicity - AMES test - mouse - male	Positive
Germ cell mutagenicity - AMES test - S. typhimurium	Positive
IARC	No component of this product present at levels greater than or equal to 0.1% is identified as a probable, possible or confirmed human carcinogen by IARC
NTP	No component of this product present at levels greater than or equal to
	0.1% is identified as a known or anticipated carcinogen by NTP
OSHA	No component of this product present at levels greater than or equal to
0311/1	0.1% is identified as a carcinogen or potential carcinogen by OSHA
Reproductive toxicity	No data available
Respiratory or skin sensation -	May cause sensitization by skin contact
Maximization test - guinea pig	They suggested action by stant contact
Skin irritation - rabbit	Mild skin irritation - 24 hours
Specific target organ toxicity - repeated	No data available
exposure	No data available
Specific target organ toxicity - single exposure	No data available
Amorphous Silica(112926-00-8)	
ACGIH	no component of this product present at levels greater than or equal to
ACGIT	0.1% is identified as a carcinogen or potential carcinogen by ACGIH
Acute toxicity	no data available
Acute toxicity: Dermal	no data available
Acute toxicity: Inhalation	no data available
Additional information	Amorphous silica is not classified as to its carcinogenicity to humans,
	however, crystalline silica inhaled in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (Group 1, IARC). Therefore, amorphous silica should be handled as if possessing the same hazards as the crystalline form. To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly
	investigated.
Additional information	Stomach - irregularities - based on human evidence
Aspiration hazard	no data available
Carcinogenicity: IARC: Group 3:	not classifiable as to its carcinogenicity to humans
Eye irritation	no data available
Germ cell mutagenicity	no data available
NTP	no component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP
OSHA	no component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA
Reproductive toxicity	no data available
Respiratory or skin sensation	no data available
Skin irritation	no data available
Specific target organ toxicity - repeated	no data available
exposure	
Specific target organ toxicity - single exposure	no data available
Barium Sulfate(7727-43-7)	
Darium Sunate(//2/-43-/)	

ACGIH	No component of this product present at levels greater than or equal to
ACGITI	0.1% is identified as a carcinogen or potential carcinogen by ACGIH
Acute toxicity - Dermal	No data available
Acute toxicity - inhalation	No data available
Additional information	Prolonged inhalation of dust may cause baritosis, a benign
Additional information	pneumoconiosis. If ingested, the presence of soluble barium salts as
	impurities may cause toxic reactions due to bioaccumulation., Damage to
	the lungs., To the best of our knowledge, the chemical, physical, and
	toxicological properties have not been thoroughly investigated.
Additional information	Stomach irregularities - based on human evidence
Aspiration hazard	No data available
Carcinogenicity - rat - intrapleural -	Equivocal tumorigenic agent by RTECS criteria. Lungs, Thorax, or
tumorigenic	Respiration: Tumors
Eye irritation	No data available
Germ cell mutagenicity - mouse -	No reported data
micronucleus test	No reported data
IARC	No component of this product present at levels greater than or equal to
Truce	0.1% is identified as a probable, possible, or confirmed human carcinogen
	by IARC
NTP	No component of this product present at levels greater than or equal to
	0.1% is identified as a known or anticipated carcinogen by NTP
OSHA	No component of this product present at levels greater than or equal to
	0.1% is identified as a carcinogen or potential carcinogen by OSHA
Reproductive toxicity	No data available
Respiratory or skin sensation	No data available
Skin irritation	No data available
Specific target organ toxicity - repeated	No data available
exposure	
Specific target organ toxicity - single	No data available
exposure	
Carbon Black(1333-86-4)	
Aspiration hazard	No data available
Carcinogenicity - Rat - Inhalation	Tumorigenic: Carcinogenic by RTECS criteria. Lungs, Thorax, or
Carcinogenicity - Rat - Inhalation	Tumorigenic: Carcinogenic by RTECS criteria. Lungs, Thorax, or Respiration: Tumors. This product is or contains a component that has
Carcinogenicity - Rat - Inhalation	
Carcinogenicity - Rat - Inhalation	Respiration: Tumors. This product is or contains a component that has
Carcinogenicity - Rat - Inhalation DNA repair - Rat - Female	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP,
	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies.
DNA repair - Rat - Female	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative
DNA repair - Rat - Female Eye damage/irritation - Rabbit	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405)
DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative Negative
DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity Hamster - Ovary	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative
DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity Hamster - Ovary IARC LD50 Dermal - Rabbit	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative Negative 2B - Group 2B: Possibly carcinogenic to humans (carbon black)
DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity Hamster - Ovary IARC	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative Negative 2B - Group 2B: Possibly carcinogenic to humans (carbon black) > 3,000 mg/kg
DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity Hamster - Ovary IARC LD50 Dermal - Rabbit LD50 Inhalation - Rat	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative Negative 2B - Group 2B: Possibly carcinogenic to humans (carbon black) > 3,000 mg/kg No data available
DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity Hamster - Ovary IARC LD50 Dermal - Rabbit LD50 Inhalation - Rat LD50 Oral - Rat	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative Negative 2B - Group 2B: Possibly carcinogenic to humans (carbon black) > 3,000 mg/kg No data available > 8,000 mg/kg, male and female, (OECD Test Guideline 401) No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP
DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity Hamster - Ovary IARC LD50 Dermal - Rabbit LD50 Inhalation - Rat LD50 Oral - Rat	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative Negative 2B - Group 2B: Possibly carcinogenic to humans (carbon black) > 3,000 mg/kg No data available > 8,000 mg/kg, male and female, (OECD Test Guideline 401) No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP
DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity Hamster - Ovary IARC LD50 Dermal - Rabbit LD50 Inhalation - Rat LD50 Oral - Rat NTP	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative Negative 2B - Group 2B: Possibly carcinogenic to humans (carbon black) > 3,000 mg/kg No data available > 8,000 mg/kg, male and female, (OECD Test Guideline 401) No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP Specific target organ toxicity - repeated exposure: No data available
DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity Hamster - Ovary IARC LD50 Dermal - Rabbit LD50 Inhalation - Rat LD50 Oral - Rat NTP Organ toxicity	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative Negative 2B - Group 2B: Possibly carcinogenic to humans (carbon black) > 3,000 mg/kg No data available > 8,000 mg/kg, male and female, (OECD Test Guideline 401) No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP
DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity Hamster - Ovary IARC LD50 Dermal - Rabbit LD50 Inhalation - Rat LD50 Oral - Rat NTP Organ toxicity Organ toxicity	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative Negative 2B - Group 2B: Possibly carcinogenic to humans (carbon black) > 3,000 mg/kg No data available > 8,000 mg/kg, male and female, (OECD Test Guideline 401) No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP Specific target organ toxicity - repeated exposure: No data available Specific target organ toxicity - single exposure: No data available

DNA repair - Rat - Female Eye damage/irritation - Rabbit Germ cell mutagenicity Hamster - Ovary IARC LD50 Dermal - Rabbit LD50 Inhalation - Rat LD50 Oral - Rat NTP Organ toxicity Organ toxicity Organ toxicity OSHA Reproductive toxicity Respiratory/skin sensitization - Guinea pig Skin corrosion/irritation Crystalline Silica(14808-60-7) ACGIH Acute Dermal toxicity	Respiration: Tumors. This product is or contains a component that has been reported to be possibly carcinogenic based on its IARC, ACGIH, NTP, or EPA classification. Limited evidence of carcinogenicity in animal studies. Negative No eye irritation, (OECD Test Guideline 405) Ames test, S. typhimurium, negative Negative 2B - Group 2B: Possibly carcinogenic to humans (carbon black) > 3,000 mg/kg No data available > 8,000 mg/kg, male and female, (OECD Test Guideline 401) No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP Specific target organ toxicity - repeated exposure: No data available Specific target organ toxicity - single exposure: No data available No component of this product present at levels greater than 0.1% is identified as a carcinogen or potential carcinogen by OSHA No data available Did not cause sensitization on laboratory animals, (OECD Test Guideline 406) No skin irritation - 24 h, (OECD Test Guideline 404) No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH no data available

Additional information	Prolonged inhalation of crystalline silica may result in silicosis, a disabling pulmonary fibrosis characterized by fibrotic changes and miliary nodules in the lungs, a dry cough, shortness of breath, emphysema, decreased chest expansion, and increased susceptibility to tuberculosis. In advanced stage, loss of appetite, pleuric pain, and total incapacity to work. Advanced silicosis may result in death due to cardiac failure or destruction of lung tissue. Crystalline silica is classified as group 1 "known to be carcinogenic to humans" by IARC and "sufficient evidence" of carcinogenicity by the NTP., The chronic health risks are associated with respirable particles of 3-4 um over protracted periods of time. Currently, there is a limited understanding of the mechanisms of quartz toxicity, including its mechanisms for lung carcinogenicity. Additional studies are needed to determine whether the cell transforming activity of quartz is related to its carcinogenic potential.
Assignation bound	no data available
Aspiration hazard	
Carcinogenicity	Limited evidence of carcinogenicity in human studies
eye irritation	no data available
Germ cell mutagenicity	no data available
IARC	Group 1: Carcinogenic to humans (Quartz)
NTP	Known to be human carcinogen (Quartz)
OSHA	No component of this product present at levels greater than or equal to
	0.1% is identified as a carcinogen or potential carcinogen by OSHA
Reproductive toxicity	no data available
Respiratory or skin sensation	no data available
Skin irritation	no data available
Specific target organ toxicity - repeated exposure - inhalation	may cause damage to organs through prolonged or repeated exposure
Specific target organ toxicity - single	no data available
exposure	
Hydrated magnesium silicate(14807-96-6)	
Acute toxicity - dermal	No data available
Acute toxicity - inhalation	No data available
Additional information	Stomach irregularities based on human evidence
Additional information	To the best of our knowledge, the chemical, physical, and toxicological
	properties have not been thoroughly investigated
Aspiration hazard	No data available
Carcinogenicity - rat - inhalation	Equivocal tumorigenic agent by RTECS criteria. Lungs, thorax, or respiration: Tumors
E . 1 h.m.	
Eye irritation	No data available
Germ cell mutagenicity	No data available
IARC	Group 3: Not classifiable as to its carcinogenicity to humans
NTP	No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP
OSHA	No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA
Penroductive toxicity	No data available
Reproductive toxicity	
Respiratory or skin sensitisation	No ata available
Skin irritation - human	Mild skin irritation 3 h
Specific target organ toxicity - repeated exposure	No data available
Specific target organ toxicity - single	No data available
exposure	
Iron Oxide(1309-37-1)	
Acute toxicity	No data available
Acute toxicity - dermal	`No data available
Additional information	Long term inhalation exposure to iron (oxide fume or dust) can cause
Additional information	siderosis. Siderosis is considered to be a benign pneumoconiosis and does not normally cause significant physiological impairment. Siderosis can be observed on x-rays with the lungs having a mottled appearance., To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.
Aspiration hazard	No data available
Carcinogenicity	This product is or contains a component that is not classifiable as to its
Carcinogenicity - rat - subcutaneous	carcinogenicity based on its IARC, ACGIH, NTP or EPA classification. Equivocal tumorogenic agent by RTECS criteria. Tumors at site of
	appilcation.
Eye irritation - human	Moderate eye irritation

IARC Group 3: not classifiable as to its carcinogenicity to humans (dilron trioxide). NTP No component of this product present at levels greater than or equal to 0.1% is identified as a kown or anticipated carcinogen by NTP. OSHA No component of this product present at levels greater than or equal to 0.1% is identified as ca carcinogen or potential carcinogen by NTP. No component of this product present at levels greater than or equal to 0.1% is identified as ca carcinogen or potential carcinogen by NSHA. Responductive toxicity No data available Separation Separation	Germ cell mutagenicity	No data available
NTP No component of this product present at levels greater than or equal to 0.1% is identified as a kown or anticpated carcinogen by NTP. No component of this product present at levels greater than or equal to 0.1% is identified as a kown or anticpated carcinogen by NTP. No component of this product present at levels greater than or equal to 0.1% is identified as ca carcinogen or potential carcinogen by OSHA. IARC	No component of this product present at levels greater than or equal to
	0.1% is identified as a probable, possible or confirmed human carcinogen
	by IARC
NTP	No component of this product present at levels greater than or equal to
	0.1% is identified as a known or anticipated carcinogen
OSHA	No component of this product present at levels greater than or equal to
	0.1% is identified as a carcinogen or potential carcinogen by OSHA
Reproductive toxicity	No data available
Respiration or skin sensitisation	Will not occur
Skin irritation - human	Mild skin irritation - 3 h
Specific target organ toxicity - repeated	No data available
exposure	
Specific target organ toxicity - single	No data available
exposure	

12. ECOLOGICAL INFORMATION

1,3,5-Triglycidyl Isocyanurate(2451-62-9)	
Bioaccumulative potential	No data available
Mobility in soil	No data available
Other adverse effects	An environmental hazard cannot be excluded in the event of
Other adverse effects	unprofessional handling or disposal. Harmful to aquatic life with long
	lasting effects
PBT & vPvB	not available/not required
Persistence and degradability -	0.5 - 1% - not biodegradable
biodegradability - aerobic - exposure time:	0.5 170 Hot blodegradable
44 d	
Toxicity to algae - growth inhibition - EC50	29 - 30 mg/l - 72 h
- Desmodesmus subspicatus	
Toxicity to bacteria - Respiration inhibition	> 100 mg/l 3 h
- IC50 - Sludge Treatment	3, ·
Toxicity to daphnia and other aquatic	> 100 mg/l - 24 h
invertebrates - Immobilization - EC50 -	- -
daphnia magna (water flea)	
Toxicity to fish - static test LC50 - danio	> 77 mg/l - 96 h
rerio (zebra fish)	
Amorphous Silica(112926-00-8)	
Bioaccumulative potential	no data available
Mobility in soil	no data available
PBT and vPvB	not available/not required
Persistence and degradability	no data available
Toxicity	no data available
Barium Sulfate(7727-43-7)	
Bioaccumulative potential	No data available
Mobility in soil	No data available
PBT and vPvB	not available/not required
Persistence and degradability	The methods for determining biodegradability are not applicable in
	inorganic substances
Toxicity	No data available
Carbon Black(1333-86-4)	
Bioaccumulative potential	No data available
EC50 Toxicity to algae	Desmodesmus subspicatus (green algae > 10,000 mg/l - 72 h (OECD Test Guideline 201)
EC50 Toxicity to daphnia and other aquatic	Daphnia magna (Water flea) > 5600 mg/l - 24 h (OECD Test Guideline
invertebrates	202)
Mobility in soil	No data available
PBT and vPvB assessment	Not available/not required
Persistence and degradability	No data available
Toxicity to fish LC50	Danio rerio (zebra fish) >1000 mg/l - 96 h
Crystalline Silica(14808-60-7)	
Bioaccumulative potential	no data available
Mobility in soil	no data available
PBT and vPvB	not available/not required
Persistence and degradability	no data available
Toxicity	no data available
Hydrated magnesium silicate(14807-96-6)	

Di lui i il	
Bioaccumulative potential	No data available
Mobility in soil	No data available
PBT and vPvB	Not available/not required
Persistence and degradability	No data available
Toxicity	No data available
Iron Oxide(1309-37-1)	
Bioaccumulative potential	No data available
Mobility in soil	No data available
Other adverse effects	No data available
PBT and vPvB	Not available/not required
Persisitence and degradability	No data available
Toxicity	No data available
Mica(12001-26-2)	
BOD5 and COD	Not available
Ecotoxicity	Not available
Products of biodegradation	Possibly hazardous short term degradation products are not likely.
	However, long term degradation products may arise.
Special remarks on the products of	Not available
biodegradation	
Toxicity of the products of biodegradation	THe products of degradation are as toxic as the original product
Silica (67%)(12001-26-2)	
Additional information - other	THe inhibition of the degradation activity of activated sludge is not
ecotoxicological advice	anticipated when introduced to biological treatment plants in appropriate
	low concentrations. The product has not been tested. The statement has
	been derived from the properties of the individual components.
Assessment of aquatic toxicity	As the present state of knowledge, no negative ecological effects are expected.
Assessment of bioaccumulation potential	The product will not be readily biodegradable due to its consistency and insolubility in water. The product has not been tested. The statement has been derived from the properties of the individual components.
Assessment of biodegradation and elimination (H20)	The colourant is insoluble in water and can thus be separated from water mechanically in suitable effluent treatments plants.
Chronic toxicity to fish	No data available
Mobility in soil - assessment transport	The subtance will not evaporate into the atmosphere from the water
between environmental compartments	surface.
Persistence and degradability - elimination	Not readily biodegradable (by OECD crtieria).
information	Not readily blodegradable (by OLCD Citieria).
Toxicity to aquatic invertebrates - LC50 -	Not determined / 48 h
daphnia	Not determined / 72 h
Toxicity to aquatic plants - EC50 - algae	Not determined / 72 h
Toxicity to fish -LC50	> 100 mg/L / 96 h
Toxicity to microorganisims EC50 -	Not determined / 0.5 h
bacteria	
Titanium Dioxide(13463-67-7)	No determination
Bioaccumulative potential	No data available
Mobility in soil	No data available
PBT and vPbV	Not available/not required
Persistence and degradability	No data available
Toxicity to daphnia and other aquatic invertebrates - ECO - Daphnia magna (water flea)	1000 mg/L / 48 h
Toxicity to daphnia and other aquatic invertebrates - EC50 - Dapphnia magna (water flea)	> 1000 mg/L / 48 h
Toxicity to fish - LC50 - other fish	> 1000 mg/L / 96 h

13. DISPOSAL CONSIDERATIONS

WASTE TREATMENT METHODS

GENERAL INFORMATION: No data available.

DISPOSAL METHOD: Dispose of in accordance with Local, State, Regional, National and International Regulations.

Ecology - waste materials: Avoid release to the environment.

15. REGULATORY INFORMATION

US FEDERAL REGULATIONS
All ingredients are TSCA (Toxic Substance Control Act) listed.

OSHA HAZARDS: Moderate skin irritant, Moderate eye irritant.

EPCRA - Emergency

CERCLA REPORTABLE QUANTITY

SARA 304 Extremely Hazardous Substances Reportable Quantity: This material does not contain any components with a section 304 EHS RQ.

SARA TITLE III (SUPERFUND AMENDMENTS AND REAUTHORIZATION ACT)

SARA 311/312 Hazards: Acute Health Hazard, Chronic Health Hazard.

This product contains:	Chemical CAS#
1,3,5-Triglycidyl Isocyanurate	2451-62-9
Carbon Black	1333-86-4
Titanium Dioxide	13463-67-7

SARA 313: No SARA 313 chemicals are present

CLEAN AIR ACT:

INTERNATIONAL REGULATIONS

CLASSIFICATION ACCORDING TO REGULATION (EC) No. 1272/2008 (CLP):

Eye Dam. 1 H318 Causes serious eye damage
Skin Sens. 1 H317 May cause an allergic skin reaction
Muta. 1B H340 May cause genetic defects
Carc. 2 H351 Suspected of causing cancer

STOT RE 1 H372 Causes damage to organs through prolonged or repeated exposure

Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects

NATIONAL REGULATIONS

This product contains:	Chemical CAS#
#Carbon Black	1333-86-4
#Titanium Dioxide	13463-67-7

National Regulations Key

Indicates a chemical listed by IARC as a possible carcinogen.

STATE REGULATIONS CALIFORNIA PROPOSITION 65

This product contains:	Chemical CAS#
*Hydrated magnesium silicate	14807-96-6
*Titanium Dioxide	13463-67-7
*Crystalline Silica	14808-60-7
